# Human C7orf38 ELISA Matched Antibody Pair

REF

ABPR-0126

RUO

This product is for research use only and is not intended for diagnostic use.

For illustrative purposes only. To perform the assay the instructions for use provided with the kit have to be used.

## PRODUCT INFORMATION

### Intended Use

This antibody pair set comes with matched antibody pair to detect and quantify protein level of human C7orf38.

### General Description

This gene encodes a protein of unknown function. The protein is weakly similar to transposase-like proteins in human and mouse.

### Reagents And Materials Provided

Antibody pair set content:

1. Capture antibody: Magic™ rabbit affinity purified polyclonal anti-C7orf38 (100 µg)
2. Detection antibody: mouse polyclonal anti-C7orf38 (40 µl)

Note: Reagents are sufficient for at least 3-5 x 96 well plates using recommended protocols.

### Reconstitution And Storage

Store reagents of the antibody pair set at -20°C or lower. Please aliquot to avoid repeated freeze thaw cycle. Reagents should be returned to -20°C storage immediately after use.
