

Anti-RPL39L polyclonal antibody (CABT-BL3182)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Immunogen	The antiserum was produced against synthesized peptide derived from internal of human RL39L.
Isotype	IgG
Source/Host	Rabbit
Species Reactivity	Human
Purification	The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.
Conjugate	Unconjugated
Applications	IHC, ELISA
Buffer	Rabbit IgG in phosphate buffered saline (without Mg ²⁺ and Ca ²⁺), pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.
Preservative	0.02% Sodium Azide
Storage	Store at -20°C/1 year

BACKGROUND

Introduction	<p>This gene encodes a protein sharing high sequence similarity with ribosomal protein L39. Although the name of this gene has been referred to as ribosomal protein L39 in the public databases, its official name is ribosomal protein L39-like. It is not currently known whether the encoded protein is a functional ribosomal protein or whether it has evolved a function that is</p>
---------------------	---

independent of the ribosome.

GENE INFORMATION

Entrez Gene ID	116832
