

Anti-TC2N (aa 9-39) polyclonal antibody (CABT-BL3540)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

| | |
|------------------------------|------------------------------------------------------------------------------------------------------------------|
| Immunogen | KLH conjugated synthetic peptide corresponding to a region between N terminal amino acids 9 - 39 of Human TC2N. |
| Isotype | IgG |
| Source/Host | Rabbit |
| Species Reactivity | Mouse, Human |
| Purification | Immunogen affinity purified |
| Conjugate | Unconjugated |
| Applications | WB, IHC-P |
| Cellular Localization | Nuclear |
| Format | Liquid |
| Buffer | PBS |
| Preservative | 0.09% Sodium Azide |
| Storage | Store at +4°C short term (1-2 weeks). Aliquot and store at -20°C long term. Avoid repeated freeze / thaw cycles. |

BACKGROUND

| | |
|---------------------|--------------------------------------------------------------------------------------------|
| Introduction | Tandem C2 domains nuclear protein is a protein that in humans is encoded by the TC2N gene. |
|---------------------|--------------------------------------------------------------------------------------------|
