

Mouse Anti-HAV Monoclonal antibody, Clone BC13 (CABT-CS483)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Specificity	HAV
Target	HAV
Isotype	IgG1
Source/Host	Mouse
Species Reactivity	HAV
Clone	BC13
Purification	>90% (SDS-PAGE)
Conjugate	unconjugated
Applications	ELISA, LFIA
Format	Liquid
Size	1 mg
Buffer	10 mM PBS 7.4, 0.1% Proclin 300
Preservative	0.1% Proclin 300
Storage	Store at 2-8°C for short term (1 week). Store at -20°C for long term (2 years). Avoid repeated freezing-thawing cycles.

BACKGROUND

Introduction

The Hepatitis A virus (HAV), or Hepatovirus A, is a member of the viral family Picornaviridae. It takes human and vertebrates as its natural hosts. HAV achieves about 1.4 million worldwide symptomatic cases per year and is the cause of Hepatitis A (formerly known as infectious hepatitis, an acute infectious disease of the liver).
