

Duck Anti-Rabies Virus Polyclonal Antibody (CABT-CS517)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

| Specificity | Rabies Virus |
|--------------------|--|
| Target | Rabies Virus |
| Isotype | IgY (ΔFc) |
| Source/Host | Duck |
| Species Reactivity | RABV |
| Purification | >95% |
| Conjugate | unconjugated |
| Applications | ELISA |
| Format | Liquid |
| Preservative | None |
| Storage | Store at 2-8°C for short term. Store at -20°C for long term. Avoid repeated freezing-thawing cycles. |

BACKGROUND

Introduction

Rabies virus, scientific name Rabies lyssavirus, is a neurotropic virus that causes rabies in humans and animals. Rabies transmission can occur through the saliva of animals and less commonly through contact with human saliva. Rabies lyssavirus, like many rhabdoviruses, has an extremely wide host range. In the wild it has been found infecting many mammalian species,
