

Human Anti-Human CD47 (Lemzoparlimab) Monoclonal antibody, clone Lemzoparlimab (CABT-CS556)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Specificity	CD47
Target	CD47
Isotype	IgG1
Source/Host	Human
Species Reactivity	Human
Clone	Lemzoparlimab
Purification	Protein A
Conjugate	unconjugated
Applications	ELISA
Format	Liquid
Size	1 mg
Buffer	PBS, pH 7.4. Contains no stabilizers or preservatives
Preservative	None
Storage	2 weeks, 2-8°C under sterile conditions after reconstitution. Avoid repeated freeze-thaw. -80°C for a long-term storage.

BACKGROUND

Introduction	CD47 is a kind of protein that is found on the surface of many cells in the body. It tells circulating immune cells called macrophages not to eat these cells. The body uses the CD47 protein to protect cells that should be protected and to help dispose of cells that are aged or diseased.
