

Rabbit Anti-Human ASF1B monoclonal antibody, clone L.970.0 (CABT-L1198)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Target	ASF1B
Immunogen	Synthetic peptide corresponding the the carboxy-terminus of the human ASF1B protein
Isotype	IgG
Source/Host	Rabbit
Species Reactivity	Human, Non-human primate
Clone	L.970.0
Purification	Affinity Purified
Conjugate	Unconjugated
Applications	ICC, IP, IF, WB
Format	Liquid
Buffer	0.01M HEPES, pH 7.5, with 0.15M NaCl, 100µg/ml BSA, 50% glycerol
Preservative	See individual product datasheet
Storage	-20°C

BACKGROUND

Introduction	This gene encodes a member of the H3/H4 family of histone chaperone proteins and is similar to the anti-silencing function-1 gene in yeast. The encoded protein is the substrate of the
---------------------	---

tousled-like kinase family of cell cycle-regulated kinases, and may play a key role in modulating the nucleosome structure of chromatin by ensuring a constant supply of histones at sites of nucleosome assembly.
