

Rabbit Anti-Human c-TEN monoclonal antibody, clone TQ94 (CABT-L1737)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Specificity	This antibody may react with (Predicted by homology) : Bovine, Mouse
Target	c-TEN
Immunogen	Synthetic peptide corresponding to C-terminus of human c-TEN protein.
Isotype	IgG
Source/Host	Rabbit
Species Reactivity	Human
Clone	TQ94
Purification	Protein A/G purified
Conjugate	Unconjugated
Applications	IHC-P
Molecular Weight	80 kDa
Cellular Localization	Cytoplasm, Membrane
Positive Control	Liver Carcinoma
Format	Liquid
Buffer	PBS, 1% BSA, pH 7.6
Preservative	< 0.1% Sodium Azide

Storage	2-8°C. Do not freeze. The user must validate any other storage conditions. When properly stored, the reagent is stable to the date indicated on the label. Do not use the reagent beyond the expiration date.
----------------	---

BACKGROUND

Introduction	C-TEN/TNS4 links the focal adhesion and cell adhesion signaling to the actin cytoskeleton. It may be involved in cell survival and migration. The protein may be involved in cell migration, cartilage development and in linking signal transduction pathways to the cytoskeleton and promote apoptosis, via its cleavage by caspase-3.
