

# Rat Anti-Mouse IL-17 A/F monoclonal antibody, clone 61215 (CABT-L1949)

This product is for research use only and is not intended for diagnostic use.

## PRODUCT INFORMATION

<b>Specificity</b>	In direct ELISAs, approximately 40% reactivity with recombinant mouse (rm) IL-17A/IL-17F heterodimer is observed. No cross-reactivity with recombinant human IL-17, recombinant canine IL-17, rmlL-17B, rmlL-17C, rmlL-17D, rmlL-17E, or rmlL-17F is observed.
<b>Target</b>	Mouse IL17
<b>Immunogen</b>	E. coli-derived recombinant mouse IL-17 Thr22-Ala158
<b>Isotype</b>	IgG2a
<b>Source/Host</b>	Rat
<b>Species Reactivity</b>	Mouse
<b>Clone</b>	61215
<b>Purification</b>	Protein A or G purified.
<b>Conjugate</b>	Unconjugated
<b>Applications</b>	Neut, WB
<b>Reconstitution</b>	Reconstitute at 0.5 mg/mL in sterile PBS.
<b>Format</b>	Lyophilized
<b>Concentration</b>	Lot specific
<b>Size</b>	500 µg
<b>Buffer</b>	PBS with 5% trehalose

<b>Preservative</b>	None
---------------------	------

<b>Storage</b>	Store at -20°C. Avoid freeze / thaw cycles.
----------------	---

## BACKGROUND

<b>Keywords</b>	Interleukin 17; IL-17
-----------------	-----------------------

## GENE INFORMATION

<b>Gene Name</b>	Interleukin 17
------------------	----------------

<b>Synonyms</b>	Interleukin 17; IL-17
-----------------	-----------------------
