

# Rabbit anti *Saccharomyces cerevisiae* Inorganic pyrophosphatase polyclonal antibody, Biotin (CABT-L7843)

This product is for research use only and is not intended for diagnostic use.

## PRODUCT INFORMATION

<b>Specificity</b>	Cross-reactivities against enzymes of other sources may occur but have not been determined.
<b>Isotype</b>	IgG
<b>Source/Host</b>	Rabbit
<b>Species Reactivity</b>	Yeast
<b>Conjugate</b>	Biotin
<b>Applications</b>	The reagents were evaluated for potency, purity and specificity using most or all of the following techniques: immunoelectrophoresis, cross-immunoelectrophoresis, single radial immunodiffusion (Ouchterlony), block titration, ELISA, immunoblotting and enzyme inhibition. This product is intended for use in precipitating and non-precipitating antibody-binding assays (such as e.g., ELISA and Western blotting and immunofluorescence or histochemical techniques).
<b>Preparation</b>	Inorganic pyrophosphatase is isolated and purified from yeast. Freund's complete adjuvant is used in the first step of the immunization procedure.
<b>Reconstitution</b>	Adding 1.0 ml sterile distilled water, spun down to remove insoluble particles
<b>Format</b>	Lyophilized
<b>Concentration</b>	Biotin-coupled hyperimmune rabbit IgG lyophilised from a solution in phosphate buffered saline (PBS, pH 7.2). No preservative added, as it may interfere with the antibody activity. No foreign protein added.

<b>Buffer</b>	PBS
<b>Preservative</b>	None
<b>Storage</b>	Store at -20°C.
<b>Ship</b>	Wet ice

## BACKGROUND

<b>Keywords</b>	PPA; pyrophosphatase (inorganic)
