

Rabbit Anti-E2 Polyclonal antibody (CABT-RM213)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Specificity	E2
Target	E2
Immunogen	Estradiol-6-CMO-BSA
Source/Host	Rabbit
Species Reactivity	Feline
Conjugate	unconjugated
Applications	ELISA
Format	Liquid
Size	1 mg
Buffer	Neat serum with preservatives
Preservative	contains preservatives
Storage	2-8°C
Ship	Cold Packs

BACKGROUND

Introduction	Estradiol (E2), also spelled oestradiol, is an estrogen steroid hormone and the major female sex hormone. It is involved in the regulation of the estrous and menstrual female reproductive
--------------	---

cycles. Estradiol is responsible for the development of female secondary sexual characteristics such as the breasts, widening of the hips, and a female-associated pattern of fat distribution and is important in the development and maintenance of female reproductive tissues such as the mammary glands, uterus, and vagina during puberty, adulthood, and pregnancy.
