

Mouse Anti-SCLC Monoclonal antibody, clone U3202 (CABT-RM307)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Specificity	Small Cell Lung Carcinoma
Target	SCLC
Immunogen	Cancerous human lung tissue (small cell lung carcinoma)
Isotype	IgG2b
Source/Host	Mouse
Species Reactivity	Human
Clone	U3202
Purification	80-90% pure. Protein A chromatography.
Conjugate	unconjugated
Applications	IF
Format	Lyophilized
Size	0.5 mg
Preservative	None
Storage	Short-term store at 2-8°C. Long term store at -20°C. Avoid multiple freeze-thaw cycles.

BACKGROUND

Introduction

Small-cell carcinoma is a type of highly malignant cancer that most commonly arises within the lung, although it can occasionally arise in other body sites, such as the cervix, prostate, and gastrointestinal tract. Compared to non-small cell carcinoma, small cell carcinoma has a shorter doubling time, higher growth fraction, and earlier development of metastases.

Keywords

Small Cell Lung Carcinoma; SCLC; Lung cancer; carcinoma of the lung
