

# Mouse Anti-Stanozolol monoclonal antibody, clone STZ (CABT-ZB010)

This product is for research use only and is not intended for diagnostic use.

## PRODUCT INFORMATION

|                           |  |
|---------------------------|--|
| <b>Target</b>             | Stanozolol                                 |
| <b>Immunogen</b>          | Stanozolol with carrier protein            |
| <b>Isotype</b>            | IgG  |
| <b>Source/Host</b>        | Mouse                                      |
| <b>Species Reactivity</b> | N/A  |
| <b>Clone</b>              | STZ  |
| <b>Purification</b>       | Affinity purification                      |
| <b>Conjugate</b>          | Unconjugated                               |
| <b>Applications</b>       | ELISA, LFIA                                |
| <b>Format</b>             | Purified, Liquid                           |
| <b>Concentration</b>      | Lot specific                               |
| <b>Size</b>               | 1 mg                                       |
| <b>Buffer</b>             | PBS  |
| <b>Preservative</b>       | None                                       |
| <b>Storage</b>            | Long time storage is recommended at -20°C. |
| <b>Ship</b>               | Wet ice                                    |

# BACKGROUND

**Introduction** Stanozolol is an orally active synthetic anabolic steroid and a 17alpha-alkylated derivative of dihydrotestosterone that is formed by the condensation of the 3-keto-aldehyde moiety of oxymetholone with hydrazine, with androgenic activity.

**Keywords** Stanozolol; Winstrol; Androstanazole; Androstanazol; 10418-03-8

# GENE INFORMATION

**Synonyms** Stanozolol; Winstrol; Androstanazole; Androstanazol; 10418-03-8
