

Mouse Anti-Saccharin monoclonal antibody, clone SAC (CABT-ZB078)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Target	Saccharin
Immunogen	Saccharin with carrier protein
Isotype	IgG
Source/Host	Mouse
Species Reactivity	N/A
Clone	SAC
Purification	Affinity purification
Conjugate	Unconjugated
Applications	ELISA, LFIA
Format	Purified, Liquid
Concentration	Lot specific
Size	1 mg
Buffer	PBS
Preservative	None
Storage	Long time storage is recommended at -20°C.
Ship	Wet ice

BACKGROUND

Introduction Saccharin is a 1,2-benzisothiazole having a keto-group at the 3-position and two oxo substituents at the 1-position. It is used as an artificial sweetening agent. It has a role as a sweetening agent, a xenobiotic and an environmental contaminant. It is a 1,2-benzisothiazole and a N-sulfonylcarboxamide.

Keywords Saccharin; Saccharine; o-Benzoic sulfimide; o-Sulfonylbenzimidazole; Saccharimide; Benzosulfimide

GENE INFORMATION

Synonyms Saccharin; Saccharine; o-Benzoic sulfimide; o-Sulfonylbenzimidazole; Saccharimide; Benzosulfimide
