

# Rabbit Anti-Human Plasminogen kringle 5B polyclonal antibody (CABT-ZB1133)

This product is for research use only and is not intended for diagnostic use.

## PRODUCT INFORMATION

<b>Specificity</b>	Cross-reactions: Single antigen reactivity with minimal cross reactivity with other human serum proteins.
<b>Target</b>	PGK5
<b>Immunogen</b>	Highly purified mini-plasminogen isolated from elastase fraction of lysyl-plasminogen.
<b>Source/Host</b>	Rabbit
<b>Species Reactivity</b>	Human
<b>Conjugate</b>	Unconjugated
<b>Applications</b>	Immunoprecipitation, immunocytochemistry in frozen sections, Western blotting and ELISA. Recommended Working Concentration: Depending on application, this serum may be used at dilutions between 1/100 and 1/5000. Each laboratory should determine an optimum working titer for use in its particular application. Other applications have not been tested but use in such assays should not necessarily be excluded.
<b>Format</b>	Liquid
<b>Concentration</b>	Lot specific
<b>Size</b>	1 mL
<b>Buffer</b>	Whole serum.
<b>Preservative</b>	None
<b>Storage</b>	We recommend that on arrival antibodies should be split into working aliquots and either

refrozen or stored at 4°C in the presence of 0.1% sodium azide preservative. Avoid repeated freeze-thaw cycles.

---

<b>Ship</b>	Wet ice

## BACKGROUND

<b>Introduction</b>	The kringle 5 domain of plasminogen, which shares high sequence homology with the four kringles of angiostatin, was previously shown to antagonize endothelial cell growth.
