

Human PRKCDBP blocking peptide (CDBP2386)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

| | |
|----------------------------|--|
| Product Overview | Blocking/Immunizing peptide for anti-PRKCDBP antibody |
| Antigen Description | The protein encoded by this gene was identified as a binding protein of the protein kinase C, delta (PRKCD). The expression of this gene in cultured cell lines is strongly induced by serum starvation. The expression of this protein was found to be down-regulated in various cancer cell lines, suggesting the possible tumor suppressor function of this protein. [provided by RefSeq, Jul 2008] |
| Species | Human |
| Conjugate | Unconjugated |
| Applications | Apuri, BL, ELISA |
| Format | Lyophilized powder |
| Size | 100 µg |
| Preservative | None |
| Storage | Shipped at ambient temperature, store at -20°C. |

GENE INFORMATION

| | |
|------------------------|---|
| Gene Name | PRKCDBP protein kinase C, delta binding protein [Homo sapiens] |
| Official Symbol | PRKCDBP |
| Synonyms | PRKCDBP; protein kinase C, delta binding protein; cavin 3; CAVIN3; HSRBC; MGC20400; sdr |
