

Native Glucoamylase (DAG-WT1281)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Product Overview	One unit causes the formation of ten milligrams of glucose in 30 minutes at 40°C under standard assay method conditions.
Conjugate	N/A
Applications	Enzymatic determination
Molecular Weight	70 kDa
Format	Lyophilized
Size	1 KU
Buffer	Enzyme dilution buffer
Storage	Store at -20°C

BACKGROUND

Introduction	Glucoamylase is an enzyme that digests partially processed starch (carbohydrates) in vegetables, potatoes, wheat, rice, and corn in order to release glucose that the body can use for energy.
Keywords	Glucoamylase; Glucan 1,4- α -glucosidase; Amyloglucosidase
