

Pregabalin [BSA] (DAG-WT1860)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Conjugate	BSA
Applications	ELISA, LFIA,
Format	Liquid
Size	1 mg
Buffer	10mM PBS, pH 7.4
Preservative	None
Storage	Store at -20°C
Ship	Wet ice

BACKGROUND

Introduction	Pregabalin is a medication used to treat anxiety, spasticity, and neuropathic pain. It works by slowing down brain activity and reducing electrical nerve impulses. Common side effects include drowsiness, dizziness, and nausea. Pregabalin can also increase the risk of depression and suicidal thoughts, so it's important to consult with a healthcare provider before starting this medication. It is typically taken orally and should be taken as directed by a healthcare professional.
Keywords	Pregabalin; Lyrica
