

# Inactivated SARS-CoV-2 Wild-Type (Zhejiang) Culture Fluid (DAG-WT1974)

This product is for research use only and is not intended for diagnostic use.

## PRODUCT INFORMATION

Conjugate	N/A
Applications	Control
Bio-activity	≥10e5 TCID50/mL
Format	Liquid
Size	100 µL
Buffer	PBS buffer
Preservative	None
Storage	Store at 2°C to 8°C

## BACKGROUND

<b>Introduction</b>	SARS-CoV-2 is the virus responsible for COVID-19. It was previously known as 2019 Novel coronavirus (2019-nCov), is a positive-sense single-stranded RNA virus. SARS-CoV-2 has close genetic similarity to bat coronaviruses, from which it likely originated. An intermediate animal reservoir such as a pangolin is also thought to be involved in its introduction to humans. From a taxonomic perspective, SARS-CoV-2 is classified as a strain of the species severe acute respiratory syndrome-related coronavirus (SARS-CoV).
