

# Inactivated *C. albicans* Culture Fluid (DAG-WT1977)

This product is for research use only and is not intended for diagnostic use.

## PRODUCT INFORMATION

|              |                |
|--------------|----------------|
| Conjugate    | N/A            |
| Applications | Control        |
| Bio-activity | ≥10e6 CFU/mL   |
| Format       | Liquid         |
| Size         | 1 mL           |
| Buffer       | DMEM           |
| Preservative | None           |
| Storage      | Store at -20°C |

## BACKGROUND

|                     |   |
|---------------------|---|
| <b>Introduction</b> | Candida albicans is an opportunistic pathogenic yeast that is a common member of the human gut flora. It can also survive outside the human body. It is detected in the gastrointestinal tract and mouth in 40–60% of healthy adults. |
