

# Recombinant Human OSMR Protein [His] (DAG-WT2023)

This product is for research use only and is not intended for diagnostic use.

## PRODUCT INFORMATION

|                  |                                                                                                                                |
|------------------|--------------------------------------------------------------------------------------------------------------------------------|
| Species          | Human                                                                                                                          |
| Purity           | > 95% as determined by SDS-PAGE                                                                                                |
| Conjugate        | His                                                                                                                            |
| Applications     | Immunoassays                                                                                                                   |
| Molecular Weight | 82.2 kDa                                                                                                                       |
| Format           | Lyophilized                                                                                                                    |
| Size             | 100 µg, 500 µg                                                                                                                 |
| Buffer           | Lyophilized from 0.22 µm filtered solution in PBS (pH 7.4). Normally 5% trehalose is added as protectant before lyophilization |
| Preservative     | None                                                                                                                           |
| Storage          | Store at -20°C                                                                                                                 |

## BACKGROUND

**Keywords** Oncostatin-M-specific receptor subunit beta; OSMR

## GENE INFORMATION

**UniProt ID** Q99650
