

## Recombinant Alnus glutinosa Aln g 1 (DAG-WT282)

This product is for research use only and is not intended for diagnostic use.

## PRODUCT INFORMATION

ConjugateTBDApplicationsImmunoassaysMolecular Weight18 kDaFormatLiquidConcentrationBatch dependent - please inquire should you have specific requirementsSize1 mgBuffer20mM Tris-HCI, pH8.0PreservativeNoneStorageStore at -80°C. Avoid freeze / thaw cycle	Purity	> 80%
Molecular Weight       18 kDa         Format       Liquid         Concentration       Batch dependent - please inquire should you have specific requirements         Size       1 mg         Buffer       20mM Tris-HCl, pH8.0         Preservative       None	Conjugate	TBD
Format Liquid  Concentration Batch dependent - please inquire should you have specific requirements  Size 1 mg  Buffer 20mM Tris-HCl, pH8.0  Preservative None	Applications	Immunoassays
Concentration Batch dependent - please inquire should you have specific requirements  Size 1 mg  Buffer 20mM Tris-HCI, pH8.0  Preservative None	Molecular Weight	18 kDa
Size 1 mg  Buffer 20mM Tris-HCI, pH8.0  Preservative None	Format	Liquid
Buffer 20mM Tris-HCI, pH8.0  Preservative None	Concentration	Batch dependent - please inquire should you have specific requirements
Preservative None	Size	1 mg
	Buffer	20mM Tris-HCl, pH8.0
Storage Store at -80°C. Avoid freeze / thaw cycle	Preservative	None
	Storage	Store at -80°C. Avoid freeze / thaw cycle
