

Linezolid [HRP] (DAG-WT397)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

| | |
|------------------|--------------------------------------|
| Product Overview | Linezolid conjugated with HRP |
| Species | N/A |
| Conjugate | HRP |
| Applications | Immunoassays |
| Reconstitution | Reconstitute with 1 ml PBS (1 mg/ml) |
| Format | Lyophilized |
| Size | 1 mg |
| Preservative | None |
| Storage | Store at -20°C |

BACKGROUND

Introduction

Linezolid is an antibiotic used for the treatment of infections caused by Gram-positive bacteria that are resistant to other antibiotics. Linezolid is active against most Gram-positive bacteria that cause disease, including streptococci, vancomycin-resistant enterococci (VRE), and methicillin-resistant *Staphylococcus aureus* (MRSA). The main uses are infections of the skin and pneumonia although it may be used for a variety of other infections including drug-resistant tuberculosis.
