

Native La (SSB) Antigen (Partially Purified) (DAG-WT663)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

| | |
|--------------|---|
| Purity | Partially purified |
| Conjugate | N/A |
| Applications | Immunoassays |
| Format | Lyophilized Powder |
| Size | 10 mg |
| Buffer | 0.01M Phosphate, 0.13M NaCl |
| Preservative | 0.02% Azide |
| Storage | After reconstituting, aliquot and store frozen at -20°C |

BACKGROUND

| | |
|--------------|--|
| Introduction | La (SS-B) is an extractable nuclear antigen (ENA) composed of a 48-kD protein combined with RNA species. La (SS-B) antibodies are found primarily in patients with Sjogren syndrome or lupus erythematosus (LE), where they occur with frequencies of approximately 60% and 15%, respectively. |
