

Voriconazole [OVA] (DAG-WT798O)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Product Overview	Voriconazole conjugated with OVA
Conjugate	OVA
Cas.No	137234-62-9
Applications	Immunoassays
Format	Liquid
Concentration	Batch dependent - please inquire should you have specific requirements
Size	1 mg
Buffer	PBS buffer
Preservative	None
Storage	2-8°C short term, -20°C long term

BACKGROUND

Introduction	Voriconazole (Vfend, Pfizer) is a triazole antifungal medication used to treat serious fungal infections. It is used to treat invasive fungal infections that are generally seen in patients who are immunocompromised. These include invasive candidiasis, invasive aspergillosis, and emerging fungal infections. The increased affinity of voriconazole for 14-alpha sterol demethylase makes it useful against some fluconazole-resistant organisms.
Keywords	Voriconazole; Vfend; Antifungal
