

Aristolochic acid[BSA] (DAG-WZ1013)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Antigen Description	Aristolochic acid is a monocarboxylic acid that is phenanthrene-1-carboxylic acid that is
	substituted by a methylenedioxy group at the 3,4 positions, by a methoxy group at position 8,

and by a nitro group at position 10. It is the most abundant of the aristolochic acids and is found in almost all Aristolochia (birthworts or pipevines) species. It has been tried in a number of

treatments for inflammatory disorders, mainly in Chinese and folk medicine.

Specificity N/A

Species N/A

Conjugate BSA

Applications ELISA, LFIA

Format Liquid

Concentration Batch dependent - please inquire should you have specific requirements.

Size 1 mg

Buffer 0.01M PBS, pH 7.2

Storage Shipped at 4°C. Upon delivery aliquot and store at -20°C. Avoid freeze / thaw cycles.

BACKGROUND

Keywords Aristolochic Acid; Aristolochic Acid I; 313-67-7; Aristolochin; Tardolyt
