

Spinosad [BSA] (DAG-WZ1054B)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Conjugate	BSA
Applications	ELISA, LFIA
Format	Liquid
Size	1 mg
Buffer	PBS
Preservative	None
Storage	Store at -20°C

BACKGROUND

Introduction	Spinosad is an insecticide based on chemical compounds found in the bacterial species <i>Saccharopolyspora spinosa</i> . The genus <i>Saccharopolyspora</i> was discovered in 1985 in isolates from crushed sugarcane. The bacteria produce yellowish-pink aerial hyphae, with bead-like chains of spores enclosed in a characteristic hairy sheath.
Keywords	Spinosad; Spinosyn A
