

17b-Boldenone(3) [HRP] (DAG1002)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

| | |
|---------------------|---|
| Product Overview | 17b-Boldenone(3), HRP conjugate |
| Antigen Description | Boldenone is an anabolic steroid which is administered as boldenone undecylenate and is approved by the United States FDA for use in horses not intended for human consumption. Following intramuscular injection, the parent drug is hydrolysed to 17 β -boldenone. 17 α -boldenone is reported to be one of the main urinary metabolites of 17 β -boldenone. |
| Species | N/A |
| Conjugate | HRP |
| Format | Concentrate |
| Size | 0.5 ml |
| Preservative | None |
| Storage | 2-8°C short term, -20°C long term |

BACKGROUND

| | |
|--------------|--|
| Introduction | Boldenone (1,4-androstadiene-3-one-17 β -ol, available as the undecylenate ester), also known under the trade names Equipoise, Ganabol, Equigan and Ultragan, is an anabolic steroid developed for veterinary use, mostly for treatment of horses. In the US it is not indicated for use in humans and is only available through veterinary clinics. |
