

Isoxsuprine [HRP] (DAG1206)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Product Overview	Isoxsuprine, HRP conjugate
Antigen Description	β -agonists are compounds having a stimulatory effect on β -adrenergic receptors and are used in human and veterinary medicine as bronchodilatory agents. The group includes drugs such as clenbuterol, carbuterol, salbutamol, methylclenbuterol, brombuterol, terbutaline, mabuterol, pirbuterol and mapenterol. The metabolism of β -agonists is dependent on the chemical properties of each drug, with excretion reported in bile, urine, faeces and milk. Accumulation of β -agonists has been reported in tissues including liver, kidney and pigmented tissue e.g. retina.
Species	N/A
Conjugate	HRP
Format	Concentrate
Size	0.5 ml
Preservative	None
Storage	2-8°C short term, -20°C long term

BACKGROUND

Introduction	Isoxsuprine is a synthetic chemical with epinephrine-Like effects. Its action relates specifically to the walls of arteries which are located in the muscles, internal organs, and extremities.
Keywords	Isoxsuprine
