

## Methylboldenone [HRP] (DAG1238)

This product is for research use only and is not intended for diagnostic use.

### PRODUCT INFORMATION

Product Overview	Methylboldenone, HRP conjugate
Antigen Description	Methylboldenone is a synthetic anabolic steroid.
Species	N/A
Conjugate	HRP
Format	Concentrate
Size	0.5 ml
Preservative	None
Storage	2-8°C short term, -20°C long term

### BACKGROUND

Introduction	Methylboldenone/Methyltestosterone is a 17-alpha-alkylated anabolic steroid used to treat men with a testosterone deficiency. It is also used in women to treat breast cancer, breast pain, swelling due to pregnancy, and with the addition of estrogen it can treat symptoms of menopause. It has a close structural similarity to testosterone, but has a methyl group at C17 in order to increase oral bioavailability.
Keywords	17-beta-Hydroxy Exemestane; Methylene Boldenone; 17beta-Hydroxy exemestane; 17beta-hydroxy-6-methylenandrost-1,4-dien-3-one
