

## **Ketoprofen [HSA] (DAG226S)**

This product is for research use only and is not intended for diagnostic use.

## PRODUCT INFORMATION

| Antigen Description | Ketoprofen, covalently linked to human serum albumin |
|---------------------|--|
| Species             | N/A  |
| Purity              | chromatography, dialysis                             |
| Conjugate           | HSA  |
| Applications        | e.g. allergy test, immunoassays etc.                 |
| Molecular Weight    | app. 65 kDa  |
| Format              | Liquid   |
| Concentration       | 1 mg/mL, conjugation ratio is app. 1:10 - 1:40.      |
| Size                | 1 mg   |
| Buffer              | PBS  |
| Preservative        | 0.05% sodium azide                                   |
| Storage             | Store at 4°C.  |

## **BACKGROUND**

Introduction

Ketoprofen is a propionic acid derivate and nonsteroidal anti-inflammatory drug (NSAID) with anti-inflammatory, analgesic and antipyretic effects. Ketoprofen inhibits the activity of the enzymes cyclo-oxygenase I and II, resulting in a decreased formation of precursors of prostaglandins and thromboxanes. The resulting decrease in prostaglandin synthesis, by prostaglandin synthase, is responsible for the therapeutic effects of ibuprofen. Ketoprofen also causes a decrease in the formation of thromboxane A2 synthesis, by thromboxane synthase,
