

# Recombinant Huaiyangshan Virus Nucleocapsid (a.a. 1-252) [His] (DAG2312)

This product is for research use only and is not intended for diagnostic use.

## PRODUCT INFORMATION

<b>Product Overview</b>	C-terminal 6xHis tagged nucleocapsid protein (Huaiyangshan virus) (a.a. 1-252)
<b>Species</b>	Huaiyangshan Virus
<b>Purity</b>	≥ 95%
<b>Conjugate</b>	His
<b>Applications</b>	WB standard, antibody ELISA, immunogen, etc.
<b>Format</b>	Each vial contains 100 µg of lyophilized protein in PBS with 8M Urea.
<b>Concentration</b>	N/A
<b>Size</b>	100 µg, 1 mg
<b>Preservative</b>	None
<b>Storage</b>	2-8°C short term, -20°C long term

## BACKGROUND

<b>Introduction</b>	Toxoplasma gondii is a species of parasitic protozoa in the genus Toxoplasma. The definitive host of T. gondii is the cat, but the parasite can be carried by many warm-blooded animals (birds or mammals, including humans). Toxoplasmosis, the disease of which T. gondii is the causative agent, is usually minor and self-limiting but can have serious or even fatal effects on a fetus whose mother first contracts the disease during pregnancy or on an immunocompromised human or cat.
