

Cotinine-4 [HRP] (DAG418)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Product Overview	Cotinine-Horseradish Peroxidase conjugate
Species	N/A
Conjugate	HRP
Applications	Specific methodologies have not been tested using this product.
Format	Liquid
Concentration	Not determined
Size	1 ml
Buffer	0.05M Tris, containing protein stabilizers.
Preservative	0.005% Thimerosal and other additives
Storage	2-8°C short term, -20°C long term

BACKGROUND

Introduction	Cotinine is a chemical derived from the catabolism of nicotine, which is found in cigarette smoke. Since cotinine can be made only from nicotine, and since nicotine enters the body with cigarette smoke, cotinine measurements can show how much cigarette smoke enters the body in a given time. Cotinine itself is not harmful.
