

5-aminosalicylic acid [HRP] (DAG463S)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Antigen Description	5-aminosalicylic acid, covalently linked to horseradish peroxidase
Species	N/A
Purity	chromatography, dialysis
Conjugate	HRP
Applications	e.g. allergy test, immunoassays etc.
Molecular Weight	app. 44 kDa
Reconstitution	Reconstitute with 1 ml PBS without azide.
Format	Lyophilized
Concentration	1 mg/mL working concentration
Size	1 mg
Preservative	None
Storage	Store at -20°C.

BACKGROUND

Introduction	Mesalamine, also known as mesalazine and 5-aminosalicylate, is an orally available, antiinflammatory agent used for the treatment of ulcerative colitis to both induce and maintain remissions in disease. Mesalamine therapy has been associated with a low rate of serum enzyme elevations during therapy and with rare instances of clinically apparent acute liver injury.
