

## Human PM/Scl100 [His] (DAG4858)

This product is for research use only and is not intended for diagnostic use.

### PRODUCT INFORMATION

<b>Species</b>	Human
<b>Purity</b>	>70% as determined by SDS-PAGE
<b>Conjugate</b>	His
<b>Applications</b>	WB
<b>Molecular Weight</b>	102 kDa
<b>Format</b>	Liquid
<b>Concentration</b>	Batch dependent - please inquire should you have specific requirements
<b>Size</b>	50 µg
<b>Preservative</b>	None
<b>Storage</b>	2-8°C short term, -20°C long term

### BACKGROUND

<b>Introduction</b>	PM/Scl 100 is a nucleolar protein and represents one crucial component of the so-called "PM/Scl complex" or "nuclear exosome", which is an RNA-processing complex consisting of a number of exoribonucleases (not to be confused with certain multivesicular bodies which are shed by cultured cells into the culture fluid and are also called exosomes)
<b>Keywords</b>	Polymyositis/scleroderma; PM/Scl
