

Auxin [KLH] (DAGA-134K)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Antigen Description	Indole-3-acetic acid, also known as IAA, is a hetero- cyclic compound that is a phytohormone called auxin. This colourless solid is native plant compound, potent and the most important auxin. The molecule is derived from indole, containing a carboxymethyl group (acetic acid).
Conjugate	KLH
Applications	Immunogen
Format	Liquid
Concentration	Batch dependent - please inquire should you have specific requirements.
Size	1 mg
Buffer	0.01M pH7.4 PBS
Preservative	None
Storage	Shipped at 4°C. Upon delivery aliquot and store at -20°C. Avoid freeze / thaw cycles.

BACKGROUND

Keywords Auxin; Indole-3-acetic acid; indolylacetic acid; indoleacetic acid; heteroauxin; IAA
