

Pig IgG (Fab) [HRP] (DAGA-3169)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Purity Pig IgG (Fab) (HRP) was purified by delipidation, salt fractionation and ion exchange chromatography followed by dialysis. Conjugate HRP Applications User optimized Lyophilized from 0.02M K3PO4, pH 7.2, with 0.15M NaCl, 10 mg/ml BSA, and 0.01% gentamicin sulfate. DO NOT add NaN3. Immunoglobulin and protease free. Concentration Batch dependent - please inquire should you have specific requirements. Size 1 mg Storage Storage Storage Store at 4 centigrade until reconstitution. Following reconstitution aliquot and freeze at -2 centigrade for long term storage. Avoid repeated freeze/thaw cycles.	Product Overview	Pig Immunoglobulin G (Fab) (HRP)
Applications User optimized Lyophilized from 0.02M K3PO4, pH 7.2, with 0.15M NaCl, 10 mg/ml BSA, and 0.01% gentamicin sulfate. DO NOT add NaN3. Immunoglobulin and protease free. Concentration Batch dependent - please inquire should you have specific requirements. Size 1 mg Storage Store at 4 centigrade until reconstitution. Following reconstitution aliquot and freeze at -2	Purity	
Format Lyophilized from 0.02M K3PO4, pH 7.2, with 0.15M NaCl, 10 mg/ml BSA, and 0.01% gentamicin sulfate. DO NOT add NaN3. Immunoglobulin and protease free. Concentration Batch dependent - please inquire should you have specific requirements. Size 1 mg Storage Store at 4 centigrade until reconstitution.
