

CA 27-29 protein (DAGA6120)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Product Overview	CA 27-29 (Cancer Antigen 27-29) is a breast tumor marker. Diagnostic tests measuring the MUC1- glycoprotein are FDA/EU approved including CA 15-3, CA 27-29 and Br assays. Reoccurrence detection of breast cancer by MUC-1 assay can precede confirmation by radiological detection methods by 1-9 months.
Antigen Description	CA 27-29 (Cancer Antigen 27-29) is a breast tumor marker. Diagnostic tests measuring the MUC1- glycoprotein are FDA/EU approved including CA 15-3, CA 27-29 and Br assays. Reoccurrence detection of breast cancer by MUC-1 assay can precede confirmation by radiological detection methods by 1-9 months.
Purity	Partially pure
Conjugate	Unconjugated
Concentration	Batch dependent - please inquire should you have specific requirements.
Size	100 kIU
Buffer	1M NaCl, 1% Triton x100
Preservative	0.1% Sodium Azide
Storage	Store at 2-8°C

BACKGROUND

Keywords	Breast Tumor antigen, MUC1 protein, MUC-1 protein, Cancer Antigen 15-3 protein, Breast Tumor protein, CA27-29 protein, Cancer Antigen 27-29 protein, Cancer Antigen 27-29 protein, Mucin 1 protein, Breast Carcinoma protein, MUC 1 protein, CA27-29, CA15-3 protein, CA 15-3 protein
