

JWH 018 [BSA] (DAGB466)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Species	N/A
Conjugate	BSA
Applications	ELISA
Format	Liquid
Concentration	7.0 mg/mL
Size	1 mg
Buffer	Protein in water
Preservative	0.01% No Azide
Storage	2-8°C for 8 weeks, -20°C+/-10°C until use by date. Avoid multiple freeze/thaw cycles

BACKGROUND

Introduction	JWH 018 is an analgesic chemical from the naphthoylindole family that acts as a full agonist at both the CB1 and CB2 cannabinoid receptors, with some selectivity for CB2. It produces effects in animals similar to those of THC, a cannabinoid naturally present in cannabis, leading to its use in synthetic cannabis products such as "legal cannabis herbal incense blends" which in some countries are sold legally as "incense", labeled "not for human consumption."
Keywords	JWH 018; 1-pentyl-3-(1-naphthoyl)indole); AM678;
