

Native Bovine Ro/SS-A Protein [biotin] (DAGC114)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Product Overview	Native Bovine Ro/SS-A purified from bovine tissues by protein-chemical methods.
Species	Bovine
Purity	> 80%
Conjugate	biotin
Applications	ELISA
Molecular Weight	60 kDa
Format	Liquid
Size	0.05 mg, 0.5 mg
Buffer	Neutral to slightly alkaline pH
Preservative	None
Storage	Store at -70°C or below. Repeated freeze/thaw cycles should avoided.

BACKGROUND

Introduction	Ro/SS-A is a ribonucleoprotein particle (RNP) that is suggested to be involved in RNA quality control and the cellular stress response to UV irradiation. It is composed of uridine-rich cytoplasmic (hY) RNAs and at least four different proteins including Ro/SS-A (60 kDa).
Keywords	TROVE2; SSA2; Ro/SS-A; Ro (SSA)
