

Avian Encephalomyelitis Virus (van Roekel) Brain Homogenate (DAGC527)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Species	AEV
Conjugate	Unconjugated
Applications	Can be used for applications such as agar gel immunodiffusion, HI, VN, SN and many others.
Format	Brain Homogenate
Size	1 ml
Preservative	None
Storage	Store at -20°C.

BACKGROUND

Introduction	Tremovirus, also known epidemic tremor, is a virus genus belonging to the Picornaviridae family. The genus has two species, Tremovirus A, which is also called Avian encephalomyelitis virus, and Tremovirus B. The first avian picornavirus to have its genome sequenced, it causes epidemic tremor in chickens.
Keywords	Avian Encephalomyelitis Virus; AEV; Avian Encephalomyelitis; Tremovirus A
