

Aflatoxin G1 standard (DAGS003)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

| | |
|----------------------------|--|
| Antigen Description | Aflatoxin G1, potent hepatotoxic and hepatocarcinogenic mycotoxin. |
|----------------------------|--|

| | |
|---------------|---|
| Purity | ≥98% ; refer to CoA for lot-specific information. |
|---------------|---|

| | |
|------------------|-----|
| Conjugate | N/A |
|------------------|-----|

| | |
|---------------|-----------|
| Cas.No | 1165-39-5 |
|---------------|-----------|

| | |
|-------------------------|------------|
| Molecular Weight | 328.3g/mol |
|-------------------------|------------|

| | |
|---------------|-------------------------|
| Format | Slightly yellow powder. |
|---------------|-------------------------|

| | |
|-------------|------|
| Size | 5 mg |
|-------------|------|

| | |
|----------------|---|
| Storage | Store in a freezer upon arrival, at -10°C to -25°C. |
|----------------|---|

| | |
|-------------|---------------------------|
| Ship | Ship at room temperature. |
|-------------|---------------------------|
