PRODUCT INFORMATION

Intended Use

CD's 17-phenyl trinor PGF2 α EIA is a sensitive detection method for measuring both the free acid and ethyl amide forms of 17-phenyl trinor PGF2 α . The assay is most appropriate for use when only one of the two forms is present.

Storage

This kit will perform as specified if stored as directed at -20°C and used before the expiration date indicated on the outside of the box. For more detailed information, please download the following document on our website.
