

# Magic™ Mouse Anti-FCV Monoclonal antibody, Clone 1161 (DMAB-CS23078)

This product is for research use only and is not intended for diagnostic use.

## PRODUCT INFORMATION

Specificity	FCV
Target	FCV
Isotype	IgG
Source/Host	Mouse
Species Reactivity	FCV
Clone	1161
Purification	Ascites were purified by the methods of octanoic acid-ammonium sulfate precipitation
Conjugate	unconjugated
Applications	ELISA (Cap)
Format	Liquid
Size	1 mg
Buffer	PBS, pH7.4
Preservative	None
Storage	Short Term: 2-8°C. Long Term: -20°C. Avoid repeated freezing and thawing.

## BACKGROUND

**Introduction**

Feline calicivirus is a highly contagious virus that causes a mild to severe respiratory infection and oral disease in cats. It is especially common in shelters and breeding colonies, and often infects young cats. Most cats recover completely after a calicivirus infection, but rare strains can be especially deadly. The virus poses no threat to humans.
