

# Rabbit Anti-Rat IL6 Monoclonal Antibody, Clone S13-6S9 (DMAB-JX2361758)

This product is for research use only and is not intended for diagnostic use.

## PRODUCT INFORMATION

Source/Host       Rabbit         Species Reactivity       Rat         Clone       \$13-6\$9         Purification       Affinity Purified         Conjugate       Unconjugated         Applications       ELISA (Detection)         We recommend the following as antibody pair (Capture - Detection):	Immunogen	Recombinant protein
Species Reactivity       Rat         Clone       \$13-6\$9         Purification       Affinity Purified         Conjugate       Unconjugated         Applications       ELISA (Detection)	Isotype	IgG
Clone       S13-6S9         Purification       Affinity Purified         Conjugate       Unconjugated         Applications       ELISA (Detection)         We recommend the following as antibody pair (Capture - Detection):	Source/Host	Rabbit
Purification       Affinity Purified         Conjugate       Unconjugated         Applications       ELISA (Detection)	Species Reactivity	Rat
Conjugate  Applications  ELISA (Detection)  We recommend the following as antibody pair (Capture - Detection):  DMAB-JX2361757-DMAB-JX2361758  Each laboratory should determine an optimum working titer for use in its particular application.  Other applications have not been tested but use in such assays should not necessarily be excluded.  Format  Purified, Liquid  Concentration  Lot specific  Size  100 μg	Clone	S13-6S9
Applications       ELISA (Detection)         We recommend the following as antibody pair (Capture - Detection):         DMAB-JX2361757-DMAB-JX2361758         Each laboratory should determine an optimum working titer for use in its particular application.         Other applications have not been tested but use in such assays should not necessarily be excluded.         Format       Purified, Liquid         Concentration       Lot specific         Size       100 μg	Purification	Affinity Purified
We recommend the following as antibody pair (Capture - Detection):  DMAB-JX2361757-DMAB-JX2361758  Each laboratory should determine an optimum working titer for use in its particular application.  Other applications have not been tested but use in such assays should not necessarily be excluded.  Format  Purified, Liquid  Concentration  Lot specific  100 μg	Conjugate	Unconjugated
Concentration Lot specific Size 100 μg	Applications	We recommend the following as antibody pair (Capture - Detection):  DMAB-JX2361757-DMAB-JX2361758  Each laboratory should determine an optimum working titer for use in its particular application.  Other applications have not been tested but use in such assays should not necessarily be
Size 100 μg	Format	Purified, Liquid
	Concentration	Lot specific
Buffer 0.01M PBS, pH 7.2	Size	100 μg
	Buffer	0.01M PBS, pH 7.2
Preservative None	Preservative	None

Ship Wet ice

### **BACKGROUND**

#### Introduction

Interleukine 6 (IL-6) is a cytokine produced primarily by stimulated monocytes, fibroblasts and epithelial cells. It has a wide variety of biological functions through activating a cellsurface signaling assembly composed of IL6, IL6RA, and the shared signaling receptor gp130. The cytokine plays an essential role in the final differentiation of b-cells into Igsecreting cells, and induces myeloma, plasmacytoma growth, nerve cells differentiations. In addition, IL-6 is an important regulator of acute phase reaction.

### **GENE INFORMATION**

Entrez Gene ID 24498

UniProt ID P20607
