

Anti-APO (native) polyclonal antibody (DPAB-DC3988)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

| | |
|---------------------------|--------------------------------------------------------------------------------------------------------------------|
| Specificity | This antibody specifically binds to human LPA and Apo (a). No cross reaction to APOB-100/48; minor to plasminogen. |
| Immunogen | Native purified human Apo (a). |
| Source/Host | Sheep |
| Species Reactivity | Human |
| Conjugate | Unconjugated |
| Applications | WB, ELISA, |
| Format | Liquid |
| Size | 500 µg |
| Buffer | In 75 mM PBS, 75 mM NaCl, 0.5 mM EDTA, pH 7.2 (0.02% sodium azide) |
| Preservative | 0.02% Sodium Azide |
| Storage | Store at 4°C. For long term storage store at -20°C. Aliquot to avoid repeated freezing and thawing. |

BACKGROUND

| | |
|---------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Introduction | Apo(a) is expressed by liver cells (hepatocytes), and the assembly of apo(a) and LDL particles seems to take place at the outer hepatocyte surface. The half-life of Lp(a) in the circulation is about 3 to 4 days. |
|---------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
