

## Anti-DNP polyclonal antibody (DPAB-DC4185)

This product is for research use only and is not intended for diagnostic use.

### PRODUCT INFORMATION

|                           |                                                                                                                                                        |
|---------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Specificity</b>        | This goat polyclonal antibody is specific to DNP and is intended for use in experiments related to receptor-mediated endocytosis and oxidative stress. |
| <b>Immunogen</b>          | DNP conjugated with KLH.                                                                                                                               |
| <b>Source/Host</b>        | Goat                                                                                                                                                   |
| <b>Species Reactivity</b> | N/A                                                                                                                                                    |
| <b>Conjugate</b>          | Unconjugated                                                                                                                                           |
| <b>Applications</b>       | WB, ELISA,                                                                                                                                             |
| <b>Format</b>             | Liquid                                                                                                                                                 |
| <b>Size</b>               | 100 µg                                                                                                                                                 |
| <b>Buffer</b>             | In PBS (0.01% sodium azide)                                                                                                                            |
| <b>Preservative</b>       | 0.01% Sodium Azide                                                                                                                                     |
| <b>Storage</b>            | Store at -80°C. Aliquot to avoid repeated freezing and thawing.                                                                                        |
