

Anti-Norovirus Capsid protein VP1 Polyclonal antibody (DPAB-DC4593)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

| | |
|---------------------------|---------------------------------------------------------------------------------------------------------------------------|
| Target | Norovirus Capsid protein VP1 |
| Immunogen | A synthetic peptide corresponding to internal region of Norovirus Capsid protein VP1 . The sequence is FGHSSQTQYDVTTPDTFV |
| Isotype | IgG |
| Source/Host | Rabbit |
| Species Reactivity | Norovirus |
| Conjugate | Unconjugated |
| Applications | WB, ELISA, |
| Format | Liquid |
| Size | 100 µg |
| Buffer | In PBS, pH 7.2 (50% glycerol, 0.01% sodium azide) |
| Preservative | 0.01% Sodium Azide |
| Storage | Store at 4°C. For long term storage store at -20°C. Aliquot to avoid repeated freezing and thawing. |

BACKGROUND

| | |
|---------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Introduction | Norovirus is a genus of genetically diverse single-stranded RNA, non-enveloped viruses in the Caliciviridae family. The known viruses in the genus are all considered to be the variant strains |
|---------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

of a single species called Norwalk virus. The viruses are trans
