

## Anti-*P. aureofaciens* Polyclonal antibody (DPAB-DC4678)

This product is for research use only and is not intended for diagnostic use.

### PRODUCT INFORMATION

<b>Target</b>	<i>P. aureofaciens</i>
<b>Immunogen</b>	<i>Pseudomonas aureofaciens</i>
<b>Source/Host</b>	Rat
<b>Species Reactivity</b>	<i>P. aureofaciens</i>
<b>Conjugate</b>	Unconjugated
<b>Applications</b>	WB, ELISA,
<b>Format</b>	Lyophilized
<b>Size</b>	100 µl
<b>Preservative</b>	None
<b>Storage</b>	Store at 4°C on dry atmosphere. After reconstitution with 50 µL of distilled water and 50 µL of glycerol, store at -20°C for 2 years. Aliquot to avoid repeated freezing and thawing.

### BACKGROUND

<b>Introduction</b>	<i>Pseudomonas aureofaciens</i> is a yellowish, aerobic, Gram-negative, motile, polar flagellated, rod bacterium isolated from clay near the river Maas. Based on 16S rRNA analysis, <i>P. aureofaciens</i> has been placed in the <i>P. chlororaphis</i> group.
<b>Keywords</b>	<i>P. aureofaciens</i> ; <i>Pseudomonas aureofaciens</i>
