

Anti-Vesicular stomatitis virus G protein Polyclonal antibody (DPAB-DC4872)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Target	Vesicular stomatitis virus G protein
Immunogen	VSV-G (YTDIEMNRLGK) conjugated to KLH as the immunogen.
Isotype	IgG
Source/Host	Rabbit
Species Reactivity	Vesicular stomatitis virus
Purification	Affinity purified
Conjugate	Unconjugated
Applications	ELISA, ICC, WB
Format	Liquid
Size	100 µg
Buffer	PBS
Preservative	None
Storage	Store at 4°C. For long term storage store at -20°C. Aliquot to avoid repeated freezing and thawing.

BACKGROUND

Introduction Vesicular stomatitis Indiana virus (VSIV) (often still referred to as VSV) is a virus in the family

Rhabdoviridae; the well-known rabies virus belongs to the same family. VSIV can infect insects, cattle, horses and pigs. It has particular importance to fa
